

4- Project: Building a school for Syrian Kurdish refugees in Domiz camp –Duhok

Private office of HE Nechirvan Barzani assigns Heevie to supervise and build school for Syrian Kurds refugees in Domiz camp.

Duhok Governor Mr. Tamar Ramadhan , Director of Health Department Mr. Fakhri Hussein and Miss Bakhshan Ali Director of Heevie

The assignment of such project to Heevie is an indication that it can go beyond offering health services only. All the efforts were used to make this school a success story of providing basic needs to the refugees. The below narration is telling all the incidents of building the school from the ground to the day of hand over.

On June 20th The Director of Health Department at the private office of H.E Nechirvan Barzani Mr. Fakhri Hussein visited Heevie and met with Miss Bakhshan Ali the director to discuss locating a school at Domiz camp where Kurd refugees from Syria are settled. Mr. Fakhri Hussein and Miss Bakhshan exchanged ideas about the proposed project which is a school of 24 rooms made of pre-fabricated materials plus playing yard for kids which will be used as entertainment facility.

To implement such project both met with Duhok Governor Mr. Tamar Ramadhan and discussed the possibility of setting and putting together such school besides asking for allocation of an appropriate piece of land in the camp for such purpose. Duhok Governor welcomed the idea and consolidated such a project. He promised to facilitate the implementation and directed camp supervisors to offer necessary help and support. Miss Bakhshan and Mr. Fakhri Hussein paid a visit to Domiz camp and made a tour to understand the needs of the people and find a suitable location for the school in coordination with camp manager.

On July 13th Miss Bakhshan accompanied Engineer Farhad Mamil to Domiz Camp administration to initialize the basic preparations for school set up. They made a tour at the land allocated for such purpose and discussed technical and logistic issues with Eng. Thamer and Mr. Sagvan, at the same time they paid a visit to the main school of the camp to get better idea and avoid technical mistakes of setting up the school. The group met with some children of the camp and broke the news for them that they will have another school set for them soon.
